

FOODIEDELIGHT

FOODIEDELIGHT is a comprehensive food delivery application designed to facilitate efficient management of restaurants offering diverse cuisines with diversity in menus.

As an admin, have the capability to perform the following actions:

1. **Add Restaurants:** Easily add new restaurants representing different cuisines to the platform. Each restaurant entry includes essential details such as name, address, description, operating hours, cuisine type and their menu.

To add a new restaurant to Foodiedelight, follow these steps:

1. **Locate the Plus Icon:** Look for the plus icon provided in the last tile of the restaurant list.
2. **Click the Plus Icon:** Click on the plus icon to initiate the process of adding a new restaurant.
3. **Fill in Necessary Information:** A new tile will appear where you can fill in all the essential details such as:
 - **Name:** Enter the name of the restaurant.
 - **Address:** Provide the complete address of the restaurant.
 - **Description:** Describe the restaurant's specialties and ambiance.

- **Operating Hours:** Specify the hours when the restaurant is open for business.
 - **Cuisine Type:** Select the cuisine type from the available options.
4. **Submit:** After filling out all the required information, click on the submit button to save the new restaurant entry.
 5. **View the New Tile:** Once submitted, the details of the newly added restaurant will be displayed in its own tile within the restaurant list.

This streamlined process allows admins to seamlessly add and manage restaurants on Foodiedelight, ensuring that users have access to an up-to-date and diverse selection of culinary options.

2. **Update Restaurant Details:** Modify existing restaurant details as needed. This functionality allows you to keep restaurant information accurate and up-to-date. When updating a restaurant in Foodiedelight, simply click on the edit icon located at the top right corner. This action opens a form populated with the restaurant's current details, ready for modification. Whether adjusting operating hours, refining descriptions, or updating addresses, this functionality ensures restaurants remain accurate and up-to-date. Administrators can seamlessly manage changes, ensuring that the platform reflects the latest information to enhance user experience and satisfaction.

Whether you're craving a quick bite or a hearty meal, Burger Haven is your go-to spot for American comfort food.
Hours: 11:00 AM - 11:00 PM **Show Menu**

3. **Add Menu:** Foodiedelight simplifies menu management with an intuitive interface. Initially, a single menu field is provided for each restaurant. Users can expand this by clicking the "Add" button, which dynamically creates additional sections for entering menu items. After entering the desired values, simply click the save icon to preserve changes. To modify an existing menu item, update the relevant fields and save again. Conversely, removing a menu item is effortless: click the delete icon, and the menu entry will promptly disappear from the list. This streamlined approach empowers users to efficiently manage and update restaurant menus as needed.

Add Menu

Enter Menu	Enter Price	<div></div>
Enter Menu	Enter Price	<div></div>

- Delete Cuisines:** If a particular cuisine category is no longer desired or represented, you can remove it from the platform. This ensures that the application's restaurant offerings remain relevant and focused on current culinary preferences. To remove a restaurant in foodiedelight, click on the bin (delete) icon located at the top left corner of the restaurant's tile. This action initiates the removal process, allowing administrators to efficiently manage the platform's restaurant listings. By clicking this icon, administrators can swiftly delete restaurants that are no longer relevant or needed, ensuring the platform remains streamlined and up-to-date with current offerings.

5. **Show Menu:** If want to see menu of restaurant then by clicking on show menu button, popup will be visible with checkboxes.

Food delight provides a user-friendly interface for managing these operations, empowering admins to curate a dynamic and diverse selection of restaurants that cater to a wide range of culinary tastes.

6. Validation Checks

Foodiedelight ensures data completeness by validating required fields. When adding or updating restaurant details or menu items, if any essential field is omitted, a error message promptly alerts users. This proactive validation ensures that all necessary information is provided before proceeding, maintaining data accuracy and user clarity throughout the management process.
